

Gaylord

INDIA  
RESTAURANT

## INDIAN FOOD

*Indian cuisine is a subtle combination of exotic flavours achieved by the centuries-old craft of blending spices from all four corners of the country.*

*Each of our dishes has its own individual taste and aroma, created not by curry powder, but by a delicate blending of spices freshly prepared every day.*

*Rooted in the soil of northern India, our specialities are made in our restaurant exactly as they are in our homes.*
