NOTE.—Copies of this leaflet can be obtained on request at any Post Office. A copy of each further issue will be sent free of charge to any address on publication if application for this service is made at a Head Post Office.

I.—LETTER AIR MAILS.

1. Any kind of letter packet may be sent by Air Mail, that is letters, postcards, printed papers and commercial papers, and samples. The limits of size and weight are the same as for similar correspondence sent by ordinary post. Air Mail letters can be accepted for **registration** except for the Colombian Air Service, but **insurance** is limited to letters and boxes for Holland and Switzerland. The ordinary arrangements for **express delivery** and the use of the green label system (for articles liable to Customs duty) apply.

2. A special blue Air Mail label must be affixed to the top left-hand corner of every Air Mail packet. These labels may be obtained free of charge at any Post Office. Letters bearing a manuscript indication "By Air Mail" will be accepted, but no responsibility can be accepted for any delay they may incur.

3. Stamps to the full value of the combined postage and air fee (see pages 6 and 7) must be affixed at the top right-hand corner of the address side of the envelope. If the proper fees are not prepaid, the packet cannot be sent by Air Mail. Special attention is drawn to the fact that the combined postage and air fees for correspondence for countries outside Europe are for a weight of half an ounce.

A letter containing more than the ordinary double sheet of notepaper is likely to be over half an ounce in weight.

4. Particulars of the letter air mail services available are given in Section IV. For latest times of posting apply at local Head Post Office.

II.—PARCEL AIR MAILS.

5. Except where otherwise indicated hereinafter, the General Regulations of the Imperial and Foreign Parcel Post apply, *e.g.*, as regards maximum weight and dimensions, Customs Declarations and Despatch Notes, Supplemental services, Compensation, etc.—on which points see the Post Office Guide. Air parcels cannot, however, be insured except in the case of those for Holland and Switzerland.

6. **Accepting Offices.**—Air parcels may be posted at any Post Office which accepts parcels for places abroad. Air parcels exceeding 11 lb. in weight are accepted at the same Offices and under the same conditions as similar parcels for transmission by ordinary post.

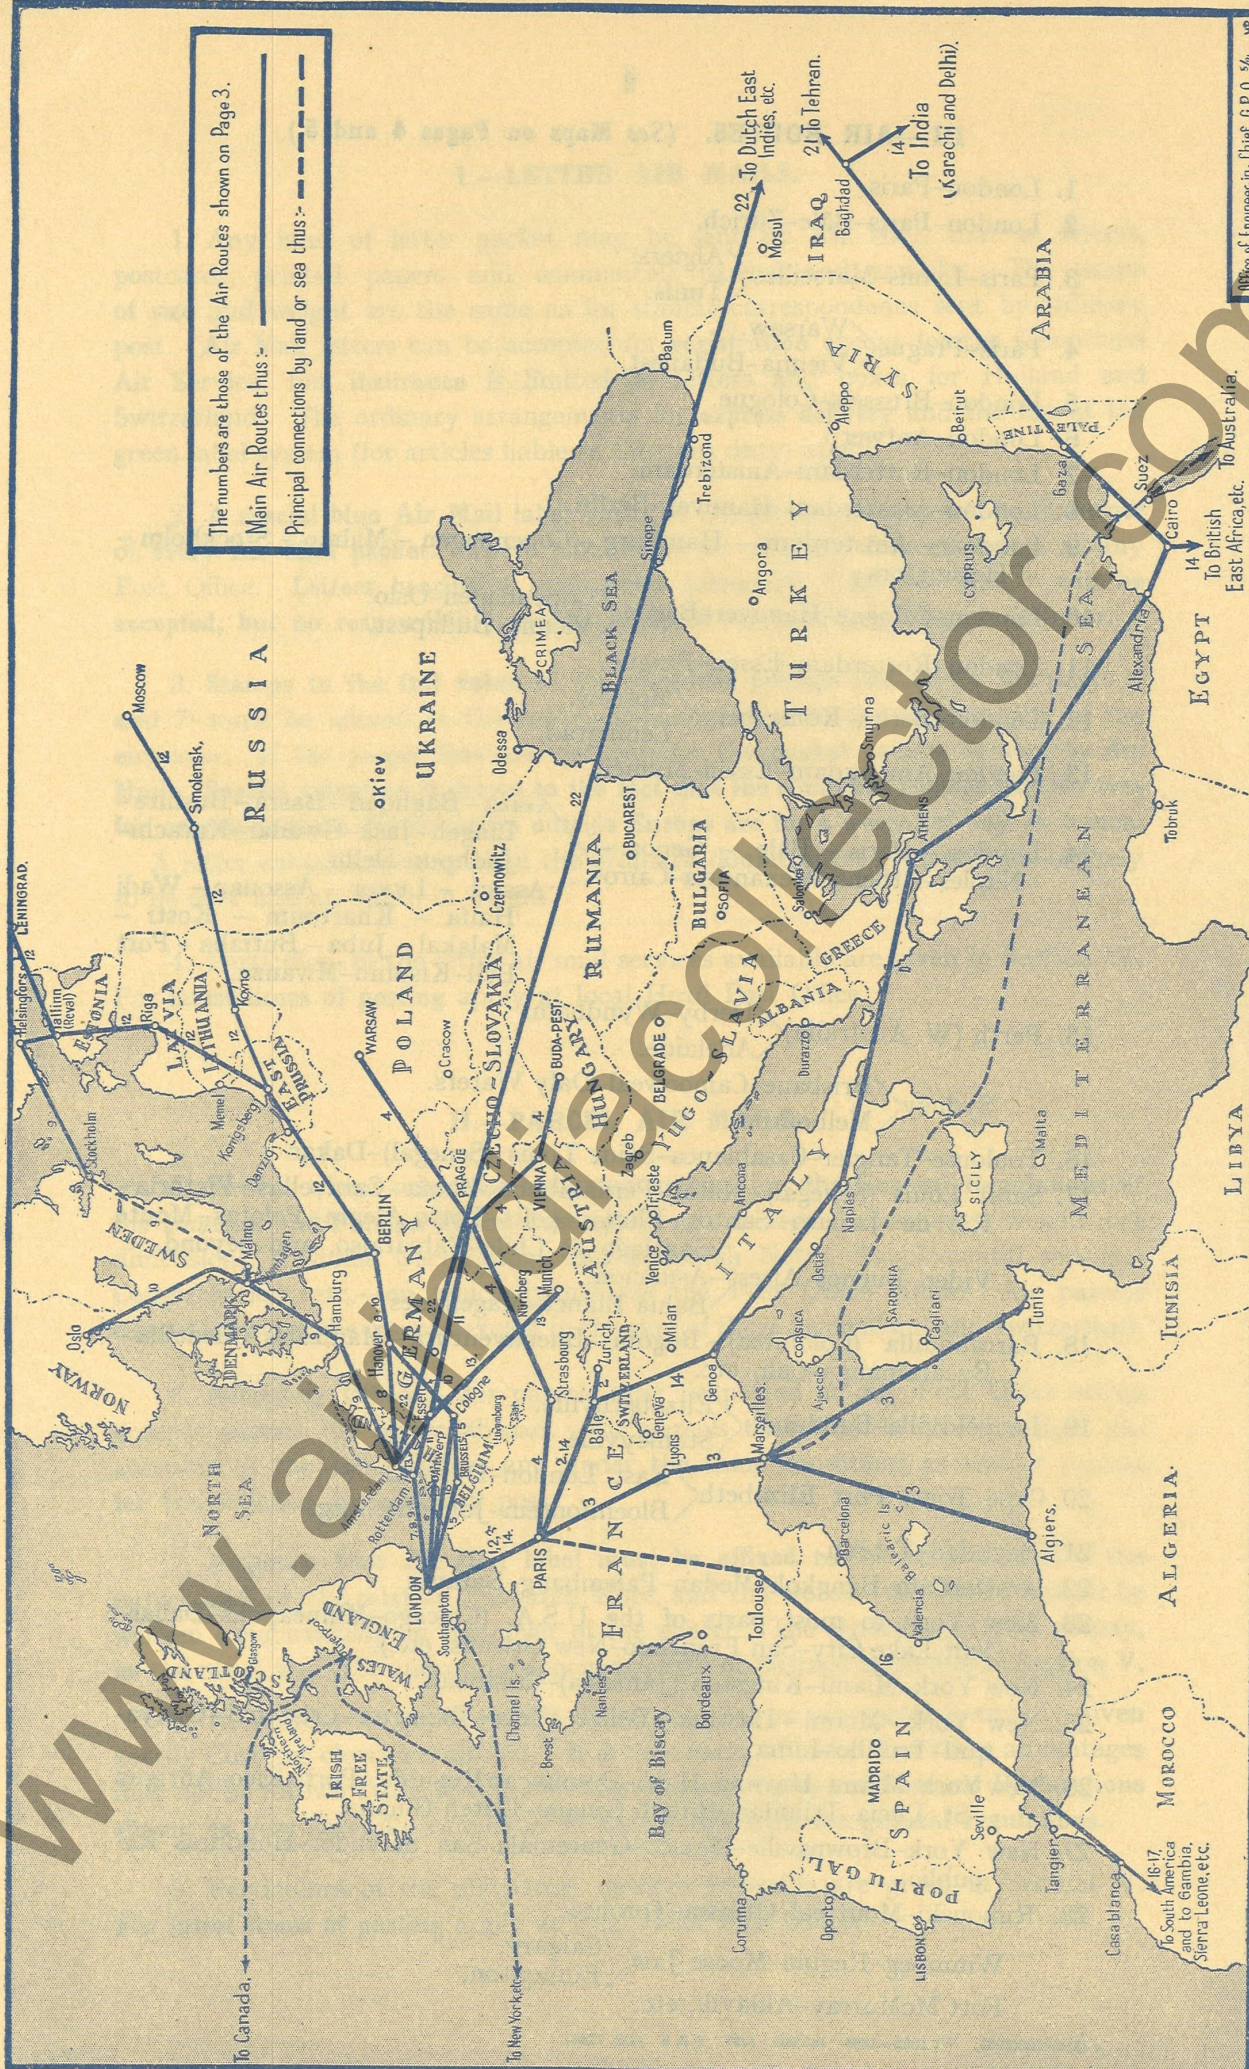

7. A special blue Air Mail label must be affixed to the address label of the parcel and to the relative Despatch Note, and the words "Air Mail" should be written conspicuously on the cover of the parcel. The sender must also prepay, in the usual way, the appropriate inclusive rate of postage as shown in Section V.

8. In addition to rapid transit by air service, an air parcel is usually given speedy Customs clearance abroad. It is important, in order that these advantages may not be thrown away, that the relative Despatch Notes and Customs Declarations should be very carefully completed in accordance with the general regulations.

9. Particulars of the air parcel services available are given in Section V. For latest times of posting apply at local Head Post Office.

Correspondence intended for Air Mail transmission may be posted at any Post Office or in any posting receptacle, but the use of the special Air Mail boxes as a rule gives a later time of posting. The letters etc. are collected from them by special Air Mail motor vans and conveyed direct to the Air Mail despatching point at the General Post Office, thus ensuring the greatest possible rapidity of transit and certainty of connection.

Correspondence not intended for Air Mail transmission or not prepaid with the appropriate Air Mail fee must not be posted in the special Air Mail boxes, otherwise it will almost certainly be delayed.
